## PROFILE

---

I'm a tech enthusiast passionate about creating experiences that merge stunning design with powerful code. Hardworking and deeply curious, I never quit until every stone is unturned, constantly refining every detail until it feels just right. Guided by clear principles in both aesthetics and functionality, I strive to build digital solutions that not only look beautiful but perform flawlessly. Fueled by a love for modern web technologies, I'm always exploring new ways to turn ideas into immersive, future-ready creations.

## PROJECTS

---

### Trellis

Smart Home App

Trellis features a clean, modern UI/UX with intuitive navigation, clear iconography, and smooth interactions, allowing users to effortlessly control, monitor, and automate their smart home through a simple, well-organized dashboard.

### Zing roll

OTT web page

Zing Roll features a bold and engaging UI/UX with a clean layout, vibrant visuals, and smooth navigation, making content discovery easy while delivering an immersive and enjoyable streaming experience.

### Auto Speed

Luxury car rental platform

Auto Speed showcases a sleek, premium UI/UX with elegant visuals, refined typography, and seamless navigation, delivering a sophisticated and effortless luxury car rental experience.
